

PUBLIC AGENCY DRONE PROGRAMS REMOTE PILOT TRAINING

Get legal. Get safe. Get results.

Attendees will receive four (4) days of instruction preparing them to successfully complete the FAA's Remote Pilot Exam. This certification is essential to beginning a safe, efficient and legal drone operation. In addition, attendees will learn state and local laws applicable to UAS operations in Mississippi, best practices, and special considerations for operating as a public entity or contracting with public entities. Approved for (3) CMO Elective credits through the Mississippi Municipal League.
