2026 LISTEN UP! HISTORIC PRESERVATION CONFERENCE

THE ART OF PRESERVATION

Preservationists and artists have long been allies in the fight to save historic places. From rescuing old theaters to once again host plays, dance recitals and symphonies, repurposing old commercial storefronts and dilapidated barns to become studios and turning abandoned schools into museums and galleries, preservation advocates understand that historic buildings are the perfect frame for creativity, purpose and community pride.

Join Mississippi Heritage Trust for the 2026 Listen Up! Historic Preservation Conference and explore inspired ways to save and renew places meaningful to Mississippians and their history.
